

Safety Data Sheet

Titebond Advanced Polymer Panel Adhesive

Section 1. Identification

GHS product identifier Product type Address	 Titebond Advanced Polymer Panel Adhesive Liquid. Franklin International 2020 Bruck Street
	Columbus OH 43207
Contact person	: Franklin Technical Services
Telephone	: (800) 877-4583
In case of emergency	: Franklin Security (614) 445-1300
Reference number	: 3818
Product code	: 4319A
Date of revision	: 5/11/2017
Print date	: 5/11/2017
Chemtrec (24 Hour)	: (800) 424 - 9300
Chemtrec International	: (703) 527 - 3887
Chemical family	: Adhesive.
Relevant identified uses of th	e substance or mixture and uses advised against

Identified uses

Adhesives

Section 2. Hazards identification

(29 CFR 1910.1200). Classification of the substance or mixture GHS label elements Hazard pictograms : Signal word Hazard statements : Causes eye irritation. May cause an allergic skin reaction. Precautionary statements Prevention : Wear protective gloves. Avoid breathing vapor. Wash hands thoroughly af Contaminated work clothing must not be allowed out of the workplace. Response : IF ON SKIN: Wash with plenty of soap and water. Wash contaminated clot reuse. If skin irritation or rash occurs: Get medical attention. IF IN EYES:		
substance or mixture SKIN SENSITIZATION - Category 1 GHS label elements Hazard pictograms Hazard pictograms : Signal word : Hazard statements : Causes eye irritation. May cause an allergic skin reaction. Precautionary statements Prevention : Wear protective gloves. Avoid breathing vapor. Wash hands thoroughly af Contaminated work clothing must not be allowed out of the workplace. Response : IF ON SKIN: Wash with plenty of soap and water. Wash contaminated clor reuse. If skin irritation or rash occurs: Get medical attention. IF IN EYES:	OSHA/HCS status	: This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200).
Hazard pictograms : Signal word : Hazard statements : Causes eye irritation. May cause an allergic skin reaction. Precautionary statements Prevention : Wear protective gloves. Avoid breathing vapor. Wash hands thoroughly af Contaminated work clothing must not be allowed out of the workplace. Response : IF ON SKIN: Wash with plenty of soap and water. Wash contaminated cloir reuse. If skin irritation or rash occurs: Get medical attention. IF IN EYES:		
Signal word : Warning Hazard statements : Causes eye irritation. May cause an allergic skin reaction. Precautionary statements : Wear protective gloves. Avoid breathing vapor. Wash hands thoroughly af Contaminated work clothing must not be allowed out of the workplace. Response : IF ON SKIN: Wash with plenty of soap and water. Wash contaminated cloor reuse. If skin irritation or rash occurs: Get medical attention. IF IN EYES:	GHS label elements	
Hazard statements : Causes eye irritation. May cause an allergic skin reaction. Precautionary statements : Wear protective gloves. Avoid breathing vapor. Wash hands thoroughly af Contaminated work clothing must not be allowed out of the workplace. Response : IF ON SKIN: Wash with plenty of soap and water. Wash contaminated clot reuse. If skin irritation or rash occurs: Get medical attention. IF IN EYES:	Hazard pictograms	
Hazard statements : Causes eye irritation. May cause an allergic skin reaction. Precautionary statements : Wear protective gloves. Avoid breathing vapor. Wash hands thoroughly af Contaminated work clothing must not be allowed out of the workplace. Response : IF ON SKIN: Wash with plenty of soap and water. Wash contaminated clot reuse. If skin irritation or rash occurs: Get medical attention. IF IN EYES:	Signal word	: Warning
Prevention: Wear protective gloves. Avoid breathing vapor. Wash hands thoroughly af Contaminated work clothing must not be allowed out of the workplace.Response: IF ON SKIN: Wash with plenty of soap and water. Wash contaminated clot reuse. If skin irritation or rash occurs: Get medical attention. IF IN EYES:	-	: Causes eye irritation.
Response Contaminated work clothing must not be allowed out of the workplace. IF ON SKIN: Wash with plenty of soap and water. Wash contaminated clot reuse. If skin irritation or rash occurs: Get medical attention. IF IN EYES:	Precautionary statements	
reuse. If skin irritation or rash occurs: Get medical attention. IF IN EYES:	Prevention	: Wear protective gloves. Avoid breathing vapor. Wash hands thoroughly after handling. Contaminated work clothing must not be allowed out of the workplace.
to do. Continue rinsing. If eye irritation persists: Get medical attention.	Response	: IF ON SKIN: Wash with plenty of soap and water. Wash contaminated clothing before reuse. If skin irritation or rash occurs: Get medical attention. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical attention.

Section 2. Hazards identification

Disposal

: Dispose of contents and container in accordance with all local, regional, national and international regulations.

Hazards not otherwise classified

: None known.

Section 3. Composition/information on ingredients

Hazardous ingredients

United States

Name	CAS number	%
N-(2-aminoethyl)-N'-[3-(trimethoxysilyl)propyl]ethylenediamine	35141-30-1	0.1 - 0.5

Canada

Name	CAS number	%
N-(2-aminoethyl)-N'-[3-(trimethoxysilyl)propyl]ethylenediamine	35141-30-1	0.1 - 0.5

Mexico

<u>Mexico</u>				Classification				
Name	CAS number	UN number	%	IDLH	Η	F	R	Special
N-(2-aminoethyl)-N'-[3- (trimethoxysilyl)propyl] ethylenediamine	35141-30-1	UN3082	0.1 - 0.5	-	0	1	0	-

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

Section 4. First aid measures

Description of necess	ary first aid measures
Eye contact	 Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. If irritation persists, get medical attention.
Inhalation	: Remove victim to fresh air and keep at rest in a position comfortable for breathing. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Get medical attention if adverse health effects persist or are severe. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.
Skin contact	: Wash with plenty of soap and water. Remove contaminated clothing and shoes. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. Continue to rinse for at least 10 minutes. Get medical attention. In the event of any complaints or symptoms, avoid further exposure. Wash clothing before reuse. Clean shoes thoroughly before reuse.
Ingestion	: Wash out mouth with water. Remove dentures if any. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention if adverse health effects persist or are severe. Never give anything by mouth to an unconscious person.

Section 4. First aid measures

If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.

Most important symptoms/effects, acute and delayed

Potential acute health effect	<u>s</u>
Eye contact	: Causes eye irritation.
Inhalation	: No known significant effects or critical hazards.
Skin contact	: May cause an allergic skin reaction.
Ingestion	: No known significant effects or critical hazards.
Over-exposure signs/symp	<u>oms</u>
Eye contact	: Adverse symptoms may include the following: irritation watering redness
Inhalation	: No specific data.
Skin contact	: Adverse symptoms may include the following: irritation redness
Ingestion	: No specific data.
Indication of immediate med	cal attention and special treatment needed, if necessary

Notes to physician	 Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
Specific treatments	: No specific treatment.
Protection of first-aiders	: No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves.

See toxicological information (Section 11)

Section 5. Fire-fighting measures		
Extinguishing media		
Suitable extinguishing media	: Use an extinguishing agent suitable for the surrounding fire.	
Unsuitable extinguishing media	: None known.	
Specific hazards arising from the chemical	: In a fire or if heated, a pressure increase will occur and the container may burst.	
Hazardous thermal decomposition products	: No specific data.	
Special protective actions for fire-fighters	 Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. 	
Special protective equipment for fire-fighters	: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.	

Section 6. Accidental release measures

Personal precautions, protec	tive equipment and emergency procedures
For non-emergency personnel	: No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.
For emergency responders	: If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".
Environmental precautions	: Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).
Methods and materials for co	ntainment and cleaning up
Small spill	: Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
Large spill	: Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

Section 7. Handling and storage

Precautions for safe handling

Protective measures	: Put on appropriate personal protective equipment (see Section 8). Persons with a history of skin sensitization problems should not be employed in any process in which this product is used. Do not get in eyes or on skin or clothing. Do not ingest. Avoid breathing vapor or mist. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.
Advice on general occupational hygiene	: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.
Conditions for safe storage, including any incompatibilities	: Store between the following temperatures: 10 to 32.222°C (50 to 90°F). Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

Section 8. Exposure controls/personal protection

Contro	parameters

United States

Occupational exposure limits

Ingredient name	Exposure limits
No exposure limit value known.	

Section 8. Exposure controls/personal protection

<u>Canada</u>

Occupational exposure limits			TWA (8 hours)		STEL (15 mins)			Ceiling			
Ingredient	List name	ppm	mg/ m³	Other	ppm	mg/ m³	Other		mg/ m³	Other	Notations
No exposure limit value known.											

<u>Mexico</u>

Occupational exposure limits

Ingredient	Exposure limits
No exposure limit value known.	

Consult local authorities for acceptable exposure limits.

Appropriate engineering controls	Good general ventilation should be sufficient to control worker exposure to airborne contaminants.
Environmental exposure controls	Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.
Individual protection measur	
Hygiene measures	Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Contaminated work clothing should not be allowed out of the workplace. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.
Eye/face protection	Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: chemical splash goggles.
Skin protection	
Hand protection	Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated.
Body protection	Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
Other skin protection	Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
Respiratory protection	Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

Section 9. Physical and chemical properties

Appearance

Physical state	: Liquid.
Color	: Tan.
Odor	: Slight
Odor threshold	: Not available.
рН	: Not applicable.
Melting point	: Not available.
Boiling point	: Not available.
Flash point	: Closed cup: >93.3°C (>199.9°F) [Setaflash.]
Evaporation rate	: <1 (butyl acetate = 1)
VOC (less water, less exempt solvents)	: 18 g/l
Relative density	: 1.50898 to 1.51221
Solubility	: Insoluble in the following materials: cold water and hot water.
Aerosol product	

Section 10. Stability and reactivity

Reactivity	: No specific test data related to reactivity available for this product or its ingredients.
Chemical stability	: The product is stable.
Possibility of hazardous reactions	: Under normal conditions of storage and use, hazardous reactions will not occur.
Conditions to avoid	: No specific data.
Incompatible materials	: No specific data.
Hazardous decomposition products	: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

Section 11. Toxicological information

Information on toxicological effects						
Information on the likely routes of exposure	: Routes of entry anticipated: Oral, Dermal, Inhalation.					
Potential acute health effect	<u>5</u>					
Eye contact	: Causes eye irritation.					
Inhalation	: No known significant effects or critical hazards.					
Skin contact	: May cause an allergic skin reaction.					
Ingestion	: No known significant effects or critical hazards.					
Symptoms related to the physical, chemical and toxicological characteristics						
Eye contact	: Adverse symptoms may include the following: irritation watering redness					
Inhalation	: No specific data.					
Skin contact	: Adverse symptoms may include the following: irritation redness					
Ingestion	: No specific data.					
Delayed and immediate effects and also chronic effects from short and long term exposure						
Short term exposure						

Section 11. Toxicological information

Potential immediate effects	: Not available.
Potential delayed effects	: Not available.
Long term exposure	
Potential immediate	: Not available.
effects	
Potential delayed effects	: Not available.

Section 12. Ecological information

Toxicity

Conclusion/Summary	÷	Not available.
Persistence and degradability		
Not available.		
Other adverse effects	÷	No known significant effects or critical hazards.

Section 13. Disposal considerations

Section 14. Transport information

Disposal methods : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Hazardous Material Information System (U.S.A.)

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks Although HMIS® ratings are not required on SDSs under 29 CFR 1910. 1200, the preparer may choose to provide them. HMIS® ratings are to be used with a fully implemented HMIS® program. HMIS® is a registered mark of the National Paint & Coatings Association (NPCA). HMIS® materials may be purchased exclusively from J. J. Keller (800) 327-6868.

The customer is responsible for determining the PPE code for this material.
